Chr. Michelsen Institute (CMI) is an independent research institution located in Bergen, Norway. The Institute conducts multidisciplinary research across a wide spectrum of social sciences and undertakes consultancies in the field of development and human rights studies related to Third World countries. The research is based on considerable experience from assignments and field work in developing countries. With a present staff of approximately 35 researchers CMI constitutes a major centre for development research in Scandinavia. CMI has a wide international network and institutional collaborative agreements with research institutes in Africa and Asia. The Institute also houses a specialised library.

Foreword

This bibliography has been very long in the making. It started as a project in 1992 and was intended to cover the years 1965 through 1989. Since then one librarian has departed for another position and another has taken over the project. During the final stages of this publication, the decision was made to extend the bibliography to cover all publications by CMI researchers from 1965 through 1995.

We have tried to list all publications, but articles in newspapers have been omitted. All listed publications may be borrowed from the CMI library, with the exception of those listed as *Restricted*.
